

CHIPOLLINO

CIRCUS MUSICAL

The fairy tale about the boy-onion Chipollino, known since childhood, comes to life on stage in an incredible, colorful performance for the whole family! This is the story of a fruit and vegetable state, where the most sour, spicy and sweet ones grow! And how do they all get along together!?

The action takes place in a city populated by vegetables and fruits, where senseless rules oppress the population, which, led by Chipollino, revolts against the injustice of Prince Lemon and the local aristocracy.

They get rid of it by jokes, never resorting to violence, but only thanks to solidarity between friends.

Chipollino and his friends will show you how to teach Prince Lemon a lesson, squeeze all the juices out of the insidious Signor Tomato and make the villains shed onion tears.

And most importantly, he will tell you that to be friends it does not matter which garden you are from!

«Chipollino» is a combination of the spirit of a classic fairy tale and a whole set of modern and bright technologies in one musical and circus performance.

Touching, magical and instructive story will conquer you with amazing live vocals and bright circus performances from the best artists.

Aerialists, equilibrists, ultra-flexible artists and of course acrobats will rise to the stage.

Circus performers - participants and winners of international competitions - will amaze you with their skills, and all this without safety belts!

All the main characters participate in the vocal parts, only live sound is on stage.

Every detail of the show -
from the performances and animation to the
costumes and makeup - is an author's work.

This makes the performance completely
unique and unrepeatable.

Such a variety of performances
will not leave adults indifferent and
will create a special mood for children.

The creator of the show,
the Romanov Arena team, specializes in
creating original theatrical and circus shows,
successfully touring not only in Russia,
but also abroad.
