

ROMANA ROMANO

CIRCUS / THEATER / BALLET / VOCALS
MUSIC / SCENERY / COSTUMES

DESCRIPTION

The Romanov Arena company is creating theatrical shows which are based on multi-genre.

The combination of circus and theatrical art, live vocals, contemporary ballet, original scenery, exclusive music make the projects unique.

Our performances are a harmonious synthesis of all, at first glance, contradictory, creative spheres.

The shows are interesting not only for children, but for their parents.

After all, actors from the best Moscow theaters, winners of international festivals of circus art, participants of leading television projects take part in them.

Their skills will not leave you indifferent and will easily transfer any adult to the world of fairy tales.

Sometimes the habitual suddenly changes, the unshakable crumbles like a house of cards and the walls of our reality start moving...

Then we understand that the space exists behind these walls. Enigmatic, mysterious, deep ... Perhaps we call it a fairy tale!

The founders of Romanov Arena, Ekaterina and Maxim Romanov, invite you to join their fabulous performances...
